Tweaks to Equalisation Levy Unlikely in Budget

Roadmap to phase out the levy to be worked out after deal with US

Shrimi.Choudhary@timesgroup.com

New Delhi: The government is unlikely to make the equalisation levy permanent in the budget. The roadmap to phase out the levy will be worked out in line with the deal with the US while implementation of the budget will happen then. The bill gets introduced in the budget session of the parliament of the agreement between India and the US to phase out the 2% levy one-by-one.

While announcing the agreement on October 21, 2021, the finance ministry had said that the roadmap would be finalised by February 1, 2022.

India will provide credit to US compa-

No Change
Google tax rollback once global tax deal comes into force

Budget may provide final terms of India-US agreement on 2% levy

Mechanism to claim tax credit during the interim period

Extension of tax credit unlikely to non-US entities

No new tax measures until Dec 31, 2023

nies for any excess taxes accrued in the interim period between April 11, 2022 and March 2024 against tax collected under

the new regime.

The global deal, agreed upon by 106 countries, gives rights to countries, including India, to tax digital players including Microsoft, Google, Facebook and Netflix. It also provides a minimum corporation tax of 15%. It is to be implemented from 2023.

Under the Pillar One of the global deal, claiming credits are required to withdraw their existing digital services taxes and otherwise relevant similar measures with respect to tax credits and tax relief. It does not introduce any new unilateral measures in the interim period.

"The roadmap for adoption of the global tax deal, which is not happening in the current year," said an official, who did not wish to be named.

GUIDELINES FOR RECOVERY OF ARREARS No Tax Claims After Winding Up Order of Co is Passed: CBIC

Our Bureau

New Delhi: Tax officers can not make any tax claim after the winding-up order of a company, to the extent that the Central Board of Indirect Customs has said. The apex indirect taxes body Friday issued detailed guidelines for recovery

of arrears and write-offs, to prevent multiple tax authorities from pursuing the same process to minimise the scope for harassment for taxpayers or delay on the part of officials. In case of a bankrupt defaulter, tax officers cannot make any claims after the date of winding-up order of a company and sale, set

ting a deadline of six months to complete the process. According to the circular, arrears the circular prescribes that claims can be filed with the Debt Recovery Tribunal either through application or through SAREASI route, to avoid multiple claims and proceeding of the same property.

Niti Moots Priority Sector Lending for EVs

Our Bureau

New Delhi: Niti Aayog has proposed inclusion of electric vehicles in the priority sector lending guidelines, saying the move will give a significant push to retail lending in the sector.

Banks and non-banking financial companies (NBFCs) in India have the largest (altogether) lending exposure to electric vehicle (EV)-financing market size of ₹40,000 crore by 2025 and ₹7.5 lakh crore by 2030, the official said. He added that the target was for 2025-2026.

"However, retail finance for EVs has been slow to pick up," said the official, who prepared a report with Rocky Mountain Insti-

tute (RMD) and RMI India.

It suggested that the central bank should encourage the use of five parameters: socio-economic potential, technical, scalability, economic viability, and stakeholder acceptability.

Priority sector lending should be encouraged to EVs as well and support resolute value and product quality."

Significant Steps Taken to Boost Startups, says Goyal

Government has addressed issues related to angel tax, simplification of tax procedures, self-certification: Union minister for commerce & industry

Our Bureau

Mumbai : Niti Aayog has proposed inclusion of electric vehicles in the priority sector lending guidelines, saying the move will give a significant push to retail lending in the sector.

Banks and NBFCs have potential to play a major role in financing market size of ₹40,000 crore by 2025-2026.

Priority sector lending should be encouraged to EVs as well and support resolute value and product quality."

Financial institutions have an important role to play in accelerating the adoption of EVs.

For full report, go to www.economictimes.com

"What more do we need than what we can do? To eliminate, simplify or reduce what can move to self-certification, what kind of self-regulation mechanisms can you draw?" asked Goyal. He added that 2022 will see significant steps already been simplified, digitalized, or completely removed from the system; 770 offences have been removed from the system and the budget coming up soon and all of us are anxiously waiting to see and hear what is done," he said.

The budget report said that in 2021, the Indian startup ecosystem raised ₹2.1 billion worth of investment, of which ₹1.5 billion by 62 companies to fuel 100 unicorns. In fact, in 2021 startups raised over 2x of what they raised in 2019 and 2020 and the startup ecosystem is showing a massive growth in the number of

startups in the country. Around 20% of the startups in the ecosystem are built on the strength of what is being done in the country. The report found that 12.5% of Indian startup have at least one female founder. About 36% of funded founders are startups in the field of healthcare, health-tech and retail tech sectors.

"There was a big jump in participation of women in unique corporations actively participated in the startup ecosystem, versus around 17% in 2020. And there is a significant increase in the number of founders in the field of healthcare, health-tech and retail tech sectors."

"It will be a fitting reflection of India's growing strength and the resilience of our startup ecosystem if we double the number of women founders," said Goyal.

The prime minister recently announced January 18 as a national startup day which will be celebrated every year.

Goyal also asked the startup ecosystem to leverage deep tech to build solutions for the challenges faced by the startup ecosystem.

"Close to 65% of the startups created by the startup ecosystem have come from universities, according to the report. In 2021, the angel investors ecosystem grew 20% to 2020 to invest in startups.

Because year after year, we have just been called out that early stage funding is just not enough in India," added Goyal.

In 2021, the angel investors ecosystem grew 20% to 2020 to invest in startups.

According to the report, the Indian startup ecosystem is increasingly getting diversified across sectors.

"The startup ecosystem is diversifying across sectors and geographies," said Goyal.

He added that the startup ecosystem is diversifying across sectors and geographies.

Gold Savings Accounts may be Launched to Check Widening Current Account Deficit

Kolkatta: The government may announce gold savings accounts in the coming Budget as a measure to check the widening of the metal in its physical form, as it seeks to put a check on widening current account deficit, banks and trade sources said.

Customers can open such gold accounts in banks and put money in a regular basis, the sources said. They can withdraw at the prevailing gold price at any time, they said.

This is expected to reduce the demand for physical gold, as there is currently interest on SGD is 2.5%.
